

NICET PREP COURSES

SFPE GREATER ATLANTA FIRE SAFETY CONFERENCE | MARCH 14-15, 2017

ABOUT THE COURSES

March 14 - 15, 2017 | 8:30 a.m. to 4:30 p.m.

Choose between two classroom-style NICET exam preparation courses: Inspection and Testing of Water-Based Systems or Inspection and Testing of Fire Alarm Systems. Each course is two days in duration and covers Level I and Level II topics, plus more. Exam study materials should be purchased in advance and brought to the course. Specific information on required materials for each course is below.

Experienced instructors will guide participants through a detailed review of applicable codes and will provide participants with a thorough understanding of NICET and the certification process. Courses will include but are not limited to a review and explanation of applicable codes, definitions, example test questions, and test taking tips.

COURSE A: INSPECTION & TESTING OF WATER-BASED SYSTEMS

This course covers the requirements for NICET certification and reviews content relevant to all exams for both Levels I and II for the inspection and Testing of Water-Based Systems. Basic inspector procedures and safety requirements will also be reviewed throughout the two-day course.

Note: This course requires the 2014 edition of NFPA 25, which is not included with registration. To order a copy of NFPA 72 from the course instructor, call or visit (937) 434-3473 or www.firetech.com.

COURSE B: INSPECTION & TESTING OF FIRE ALARM SYSTEMS

Don't be alarmed, be prepared! Sign up for the NICET Fire Alarm Installation, Inspection and Testing Preparation! This course includes two days of training and preparation for the NICET Inspection and Testing of Fire Alarm Systems certification exam as well as additional topics for the NICET Fire Alarm Systems certification exam.

Note: This course requires the 2013 edition of NFPA 72, which is not included with registration. To order a copy of NFPA 72 from the course instructor, call or visit (937) 434-3473 or www.firetech.com.

NICET PREP COURSES

SFPE GREATER ATLANTA FIRE SAFETY CONFERENCE | MARCH 14-15, 2017

SPEAKERS

COURSE A: WATER-BASED SYSTEMS

Jasen Buddemeier, Fire Tech Productions, Inc.
Instructor for NICET Water-Based Systems Levels I & II

With over 17 years of experience in the fire protection industry, Jasen began his career at Gulfcoast Fire & Safety, working primarily with FM-200 and foam systems. Over the course of his career he has gained hands-on experience in underground fire lines, sprinkler systems, fire alarms, pre-engineered systems, and fire extinguishers. As the license holder and General Manager of the Plant City division of Alliance Fire & Safety, Jasen continues to oversee major field projects. He holds NICET certifications in Inspection & Testing of Water-Based Systems, Fire Alarms and Special Hazards. Jasen can also be found in several different FireTech Partner training labs throughout the year, providing hands-on instruction for Inspection & Testing of Water-Based Systems and Fire Alarms.

COURSE A: WATER-BASED SYSTEMS

Shawn M. Lee, Fire Tech Productions, Inc.
Instructor for NICET Fire Alarm Systems Levels I & II

Shawn Lee is the Fire Alarm Instructor for Fire Tech Productions. He is a U.S. Air Force retiree with over 26 years of service. Over the past 20 years, Shawn has led technicians in designing, installing and maintaining low voltage electrical distribution and control systems, security alarm systems, and fire alarm systems. Since 1999, he has taught U.S. Air Force military and civilian technicians to design, install, and maintain fire alarm systems for numerous facilities at five U.S. Air Force bases and two U.S. Marine Corps facilities in Iraq. He has been NICET Fire Alarm Systems certified since 2002, reaching Level III in 2007
