

Session 1C:

Being an AHJ in a COVID-19 World

Bill Koffel, Rock Toler, Chief Young, Willie Johnson, Daniel Echols

In March 2020 COVID-19 changed the way we all work considering the difficulties it presents with travel, meetings, plan reviews, fire system testing, and fire inspections. AHJs work to ensure fire safety even during a global pandemic. This panel discussion will provide experience from a number of jurisdictions on how they are completing the AHJ mission and simultaneously keeping their employees and the public safe. In addition to this real world experience, a preview and update of the new NFPA 915 Standard for Remote Inspection (currently under development) will be provided.
