

Seminar 1:
NFPA 101 Life Safety Evaluation (Chapter 12)

Usha Tyson
Sr. Fire Protection Engineer
Jensen Hughes

Usha has extensive experience in fire alarm and life safety design, fire alarm inspection and testing, evaluation and review of automatic sprinkler design and building code analysis. She conducts code assessments and life safety evaluations for a broad range of building types including assembly, high-rise mixed-use facilities, large scale residential buildings, office buildings and government facilities, museums and galleries, healthcare, laboratories, educational, retail, and storage. Usha evaluates facilities for compliance with applicable codes and design standards including NFPA, IBC, and local building codes.
