

Seminar 2C:

VESDA: Beyond the Typical Application

Don Austin Notifier Presenting

In this session we will discuss applications for VESDA beyond the typical data center application, to include:

1. Increasing occupancy loads by using VESDA for performance based design applications (NFPA101)
 2. Deploying VESDA in harsh environments such as freezers, saw mills, coal mines, etc.
 3. Using addressable air sampling detection to simplify installation and reduce the time, cost and impact of maintenance
