

# Lindsay Shapiro

Senior Risk Consultant

Lindsay Shapiro is a Certified Safety Professional and serves as a Risk Consultant for HUB International based out of Massachusetts. Lindsay's role is to assist our clients in developing and applying safety programs in support of risk management efforts and outreach. She strives to promote safety by evaluating situations for hazards with the objective of implementing safe practices. Lindsay is the risk lead for HUB's National Real Estate Practice and a participating member of HUB's Healthcare and Cannabis verticals. Additionally, Lindsay is an active member of the Education Working Group and New England's Nonprofit Group.

Lindsay was Vice President of her graduating class at Keene State College where she earned a Bachelor's of Science degree in Safety and Occupational Health Applied Sciences and minor in Geography. She also studied at the University of Wollongong in Australia with a concentration in management. She has attended courses at Oklahoma State University for Fire Protection and The University of Northern Texas for Walkway Safety. Lindsay is a member of the American Society of Safety Professionals. Before joining HUB, she worked as a Risk Control Specialist for a national insurance carrier in the Washington D.C. metropolitan area.
