

Seminar 3:

NICET – Emergency Response Radio Coverage Systems

We will present a detailed and technical 2-day training on Emergency Responder Radio Communication Enhancement Systems (ERRCS). Sign up for one or both days of learning! Day one will be a dive into fundamentals of radio technology, national codes surrounding ERRCS, when/how to perform a "Site Survey", and even basic design methods/tools for Architects and Engineers. Day two will be dedicated to the installation side of these systems. We will cover best installation practices, installation pitfalls, acceptance/annual testing, and lastly a "hands on demo" of several system components including a Bidirectional Amplifier.
