Proceeds Benefit Fire Protection Engineering
Scholarships and Fire Safety Outreach Programs

The SFPE Greater Atlanta Fire Safety Conference for many years has been the largest and best attended chapter sponsored fire safety educational event. It draws attendees and speakers from throughout the country. Having participated over the years in this event both as an attendee and speaker, I can personally attest to the high level and cutting edge technical topics being presented. And as a bonus it also offers an outstanding expo event in addition to the educational sessions. This annual conference should be on your calendar for every March.”

- JC Harrington, P.E., FSFPE, Staff Vice President, FM Global
Johnston, Rhode Island

The SFPE Greater Atlanta Fire Safety Conference has been one of the best lunch table ideas which has become a tremendous benefit for the past 18 years to fire protection engineers, designers, insurance company representatives, industry leaders and AHJ's. While providing training for these disciplines with current issues or topics from industry leaders; the conference also provides a networking opportunity for all involved and exposure to new industry technology with their vendor sponsors.

Dwayne Garriss Retired GA- State Fire Marshal
