

Session 1A:
Copenhagen Stock Exchange Fire

John Frank
AXAXL

John began his career as a professional firefighter and rose to the rank of Assistant Fire Chief at a major industrial logistics center and aircraft overhaul facility for the United States Air Force. He subsequently joined the Highly Protected Risk insurance industry as a property loss control engineer. John is currently the Property Center of Expertise Leader at AXA XL Risk Consulting, where he and his team provide advanced fire protection engineering support to the organization and its customers. For nearly 30 years, John has conducted custom pre-emergency planning classes for insured properties and their fire departments. These departments range in size from small volunteer to large urban. He has also evaluated fire department response capability in for sites in Germany, Switzerland, Russia, and throughout the United States. John's education includes an undergraduate degree in Fire and Safety Engineering Technology, a Graduate Certificate in Fire Protection Engineering, and an MBA. He is a registered Professional Engineer in Fire Protection Engineering, a Certified Fire Protection Specialist, and holds numerous fire service certifications. In 2014, John was elected to the grade of Fellow in the SFPE. John has a total of 44 years in the fire protection industry. He is currently a Director at Large for the SFPE.
